

SURE FIT SERIES

1960-1972 CHEVY/GMC TRUCK

Vintage Air Sure Fit air conditioning, heating and defrost systems for '60-'72 Chevy trucks are designed specifically for each application. We match the coil and blower to give you the maximum amount of comfort in your vehicle, greater air flow than your OEM system provided, and still retain the factory look inside your vehicle. Factory controls are used.

1960-72 Chevy/GMC Truck Sure Fit System Features:

- Mounts behind dash.
- A/C exits through dash vents.
- Floor exit heat.
- Dehumidified defrost.
- Smooth firewall.

The All-In-One Kit For Your Classic Chevy Truck!

EVAPORATOR KIT: Air conditioning, heating and defrost combination designed specifically for your vehicle. Original deluxe control assembly in your dash connects to and controls this unit. Designed to mount to existing holes in your dash and firewall without drilling* or fabrication. Evaporator kit comes complete with all mounting brackets, hardware, louvers, duct hose, wiring harness and installation instructions.

COMPLETE KIT: All above plus condenser and drier package. Attaches to existing radiator mounting holes. No drilling* or fabrication required. Comes complete with condenser, mounting brackets, standard drier, pre-formed aluminum lines and mounting hardware.

NOTE: Some installations may require additional engine pulleys not included with kits. See page 56 for options. You must provide v-belts and refrigerant.

'67-'72 kit now includes GM type double grommet for hard lines in core support.

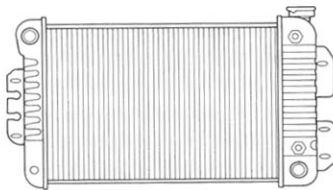

49768-LCI Replacement panel levers for non air trucks only (set of 3).

49765-LCI Replacement panel levers for factory air trucks only (set of 3).

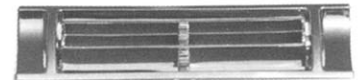

Vintage Air offers a new direct replacement radiator for your Classic Chevy/GMC Truck. We also recommend using our heavy duty fan blade and shroud.
